**HLM'S REAL-TIME MARKET INSIGHTS** 

## **Available Exclusively from High Level Marketing**

To be the leader in your market you don't need to be perfect, you just need to outrank your competitors. High Level Marketing uses our proprietary Footprint™ technology that not only gives you real-time, useful performance data about your own strategies, but also provides insight into your competitors' strategies.

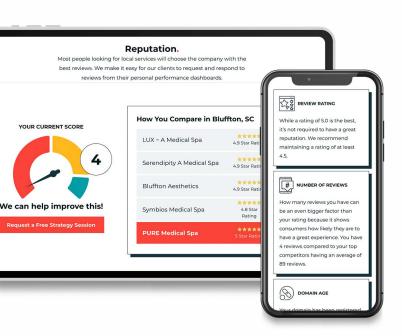

Because we're fans of transparency and big on driving success for local service businesses.

We know what it takes to stand out in a saturated, competitive market and we know what it's like to operate within a budget. Our exclusive local market report peels back the curtain to give you insight into how your business compares to your competitors on key metrics that are impacting your Google rankings.

## Your report starts with a market overview and an overall visibility score.

- Key demographic information including how many potential customers are in your target market.
- How your business compares to your top competitors according to Google.
- Digital Insights into which aspects of your strategy need improvement.

Then dives into the specific factors impacting your visibility in each of the following areas:

- · How to optimize your website for SEO.
- · Your local Google listing(s).
- · Your review profile and online reputation.

## See what's holding your business back!
